Subject: January 2023 Monthly Statistics

Date: February 23, 2023

Airport Recovery Continues into 2023

SUMMARY

San Antonio International Airport (SAT) continues to see passenger numbers rebound from the COVID-19 pandemic. In January 2023, the airport's passenger numbers reached 741,128. This represents an increase of 31% compared to the same month in 2022.

The airport continues to compare its numbers to those in 2019 to better understand its recovery. 2019 was a record year for the airport with more than 10 million passengers flying through the terminals. During January 2023, passenger levels were just shy of those seen during the same month in 2019. The airport saw 98% of January 2019's passenger levels.

Almost all airlines increased their operations from SAT significantly during the month compared to the same month in 2022. The airlines with the largest increases in service included Frontier Airlines (F9), United Airlines (UA), Southwest Airlines (WN), JetBlue Airways (B6), American Airlines (AA), and Delta Air Lines (DL). Additionally, Spirit Airlines (NK) also offered new, nonstop service during the month which was not available in January 2022.

Additionally, a total of 19,403,972 pounds of air cargo moved through SAT during the month of January 2023. This is slightly below levels seen during the same month in both 2022 and 2019. For more detailed information see the included charts.

Upcoming Changes

Spirit Airlines **will continue to expand** from SAT with new, daily nonstop service to Baltimore/Washington (BWI) launching on March 8th, Ft. Lauderdale (FLL) on March 9th, and Los Angeles (LAX) on May 5th.

Southwest Airlines (WN) will resume seasonal, once-weekly service to Ft. Lauderdale (FLL) on March 11th.

Delta Air Lines (DL) will resume daily nonstop service to New York (JFK) on May 8th. The airline will join existing nonstop service to the New York Metro that is currently operated by JetBlue Airways (B6) to New York (JFK) and United Airlines (UA) to Newark (EWR).

Delta Air Lines (DL) will add a third daily flight to Detroit (DTW) on May 8th. This not only will provide more options to the city of Detroit but open additional connections throughout the world via Delta's hub.

Currently served less than daily seasonally, Southwest (WN) will resume daily nonstop service to Kansas City (MCI) on July 11th.

DOMESTIC PASSENGERS

SAT continues to compare passenger numbers to 2019 levels to better understand and monitor the recovery. Total scheduled domestic capacity, or seats, were at 99% of what was flown in January 2023 while domestic passenger numbers were down 4% compared to January 2019.

Several airlines flew more passengers during January 2023 than the same month in 2019 showing not only recovery but significant growth in our market. These include Delta Air Lines (DL), Frontier Airlines (F9), and United Airlines (UA). United has consistently been flying both more capacity and total number of passengers from San Antonio (SAT) for several months now.

While not above 2019 levels, Alaska Airlines (AS) reached 98% of passenger levels seen prepandemic.

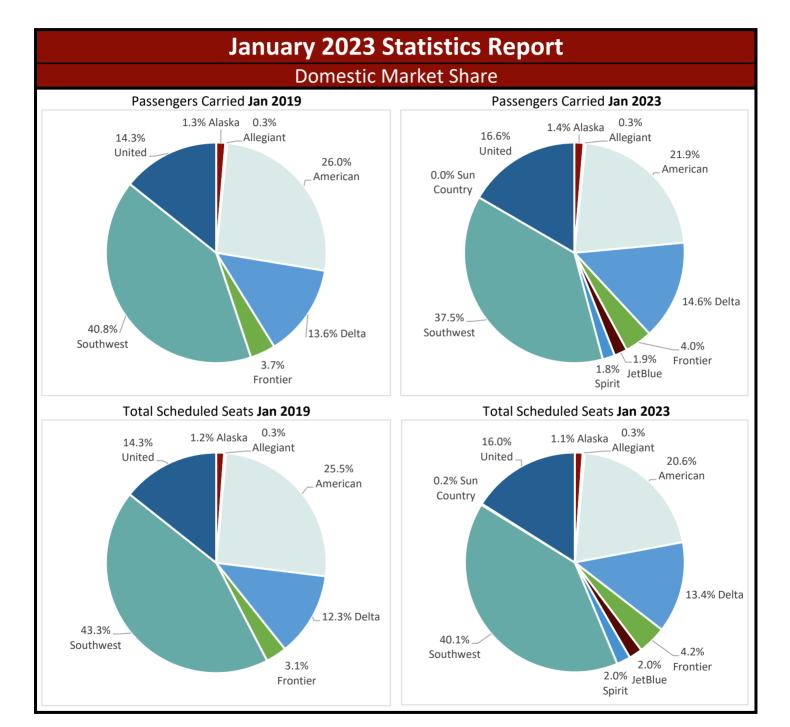

New airlines have contributed to these numbers including both JetBlue Airways (B6) and Spirit Airlines (NK) which both have launched nonstop service from SAT to various cities since the pandemic.

While domestic service levels were still slightly down at SAT in January, the following routes had more capacity this month than in January 2019:

- American Airlines (AA) to Miami (MIA) and Phoenix (PHX).
- Delta Air Lines (DL) to Detroit (DTW), Los Angeles (LAX), Minneapolis-St. Paul (MSP), and Salt Lake City (SLC).
- Frontier Airlines (F9) to Las Vegas (LAS) and Orlando (MCO).
- Southwest (WN) to Atlanta (ATL), Denver (DEN), Houston (HOU), Nashville (BNA), New Orleans (MSY), Orlando (MCO), and Phoenix (PHX).
- United Airlines (UA) to Denver (DEN), Houston (IAH), Newark (EWR), San Francisco (SFO), and Washington (IAD).

INTERNATIONAL PASSENGERS

An impressive increase in both international capacity and passengers to and from SAT has helped recovery at the airport. SAT's scheduled international capacity increased by 41% when compared to January 2019 while international passenger numbers increased by 38%.

All the airlines that operate international service from SAT added more seats to the market than in January 2019. Much of this increase in capacity was a result of pandemic closures to the land border. Since its reopening last fall, demand and capacity has remained higher than prepandemic levels at SAT indicating that many travelers have decided to fly rather than drive to and from Mexico.

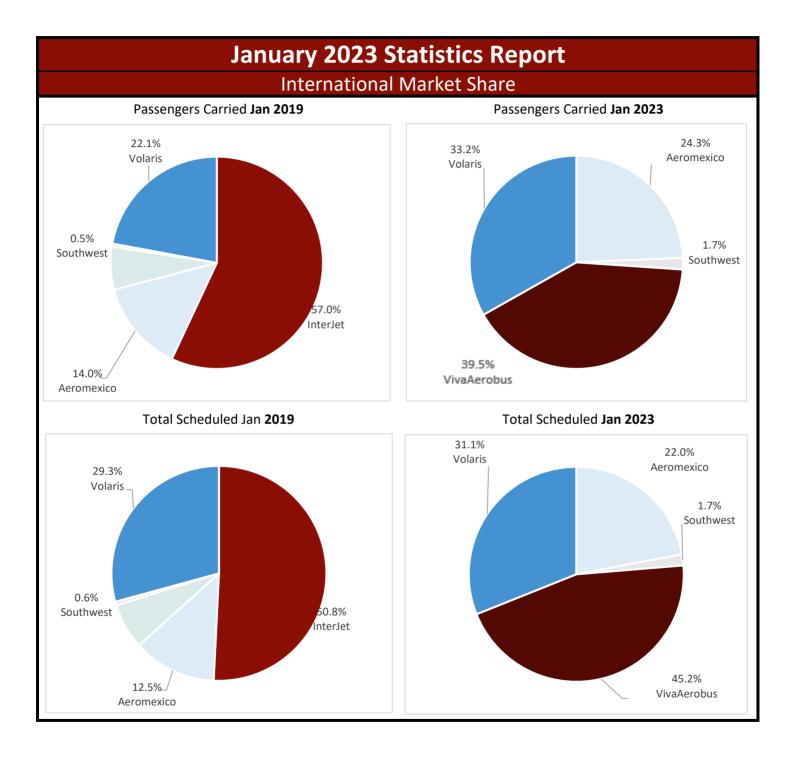

SAT ranked #1 among all U.S. medium-hub airports in terms of total seats to Mexico for January 2023. When looking at all U.S. airports, SAT ranked #17 between Las Vegas (LAS) and Charlotte (CLT). In terms of total international seats, SAT ranked #35 out of all 73 U.S. airports that had international service during January.

When comparing year-over-two-year international capacity changes, the results were based on the following:

- Aeromexico (AM) increasing frequency from daily to two/three times daily to Mexico City (MEX).
- Southwest (WN) increasing capacity on Cancun (CUN) nonstops and expanding the service year-round.
- Sun Country (SY) beginning nonstop service to Cancun (CUN) in 2021 and increasing frequencies in 2022.
- VivaAerobus (VB) entering the market with nonstop service to Leon/Guanajuato (BJX), Mexico City (MEX), and Monterrey (MTY).
- Volaris (Y4) nearly doubling their frequencies to both Guadalajara (GDL) and Mexico City (MEX).
